

Single-use Plastic boundary of target

Plastic has become one of the most idealised materials due to its durability and versatility, but this has inadvertently led to the generation of large quantities of problematic and unnecessary plastic

acts on the environment. Wood will eliminate all direct purchases within Wood's purchasing and/or contractual control of the following plastic-based products as a minimum.

- Hot drink pods / condiment sachets
- Disposable plastic / polystyrene cups and lids
- Plastic / polystyrene containers and lids
- Beverage bottles ≤ 3L
- Plastic disposable cutlery, stirrers, plates, cups, bowls and straws
-
